Dear Ms DesRosiers,

On behalf of the Western Sky Land Trust Board of Directors, we would like to thank the Alberta Chapter of the Canadian Land Reclamation Association for the steadfast and generous support of our organization. We were delighted to have participated in the Fall Tour Program and appreciate how our organizations are so extraordinarily well matched. Indeed, CLRA's leadership and fostering of land and waterway reclamation is aligned with our riparian land conservation. We share so many values and our strategic partnership is yielding good results: there are several new projects underway this fall and we look forward to sharing more at the 2017 CLRA AGM.

Again, many thanks for your continued support of Western Sky.

Sincerely,

Chris Davis
